Reply of Government.—The Deputy Commissioner will be written to on the subject. The temple may be built substantially if there is money.

SUBJECT No. 385.

Feeding the poor mofussil Sanskrit students in Mysore.

Mr. Srinivasa Rao of the T.-Narsipur Taluk.

Summary of discussion.—The good condition of the Sanskrit College at Mysore has attracted many students from abroad. Many mofussil students are inconvenienced for meals. Arrangements have now been made to feed some in the chattram. It is requested that necessary arrangements may be made to feed all such students in conformity with their caste customs.

Reply of Government.—This requires consideration. It is no doubt desirable, if funds permit, to feed strangers coming from a distance in quest of education and prosecuting studies regularly, instead of sending them adrift to beg food from door to door.

SUBJECT No. 386.

Timely disbursement of amounts required for Utsavams of Sri Anandeswaraswami, etc., from the Taluk Treasury.

Mr. Siva Basavadevaru Land-holder Talkad, T.-Narsipur Taluk.

Summary of discussion.—The Devadaya lands of Sri Anandeswara and Biksheswara temples on the banks of the Cauvery in the village of Binakanahalli, are under Government management. Arrangements are not made for the prompt disbursement of the amounts required for the utsavams, Deeparadhana and establishment charges of the above temples from the realizations of these lands. Many utsavams are not conducted in time as the bills have to be sanctioned in the District Office. It is therefore requested that arrangements may be made for the prompt disbursement of the necessary amounts from the Taluk Treasury after fixing the amounts to be spent on such occasions.

Reply of Government.—The Deputy Commissioner's report is awaited. He will be asked to expedite the matter.

SUBJECT No. 387.

Increase of paditara to the Chikdevamma temple at Heggaddevankote and the construction of a chavadi on the hill.

Mr. Lakshminarnappa, Heggaddevankote Taluk.

Summary of discussion.—The temple of Chikdevamma is situated on a hill at Heggaddevankote. Every day a thammadi and a watchman are in attendance. The daily allowance consists of one seer of raw rice and $\frac{1}{8}$ seer of oil. It was prayed in 1903 that this allowance might be increased. Nothing has yet been done. The temple servants suffer much and there is no light for the temple. A sum of Rs. 3,000 is at the credit of the temple. Want of a chavadi is much felt by the pilgrims on the hill. The old chavadi is in a dilapidated condition. It is requested that a chavadi may be ordered to be built early and the daily allowance increased.

Reply of Government.—The matter is said to be under correspondence. Action will be taken to expedite the disposal of the question.
